Summary of reasons for classification:

The DVD *Shane's World 30* also known as *Shane's World Volume 30* and *Keepin' It Real* is classified as:
Objectionable except if the availability of the publication is restricted to persons who have attained the age of 18 years.

The DVD contains a feature that is identical to a video recording of the same name previously examined and classified by the Office of Film and Literature Classification. The video version was classified as "Objectionable except if the availability of the publication is restricted to persons who have attained the age of 18 years", with the descriptive note "Contains explicit sex scenes". This decision was registered on 24 November 2003.

The DVD version contains a number of standard DVD components such as a short behind-the-scenes report, biographies of some of the main cast members from the feature and several notices. The additional components do not provide grounds to alter the classification given to the original publication.
